

Konbukuroike Natural History Park

Konbukuro-Pond Natural History Park is located at the north of Kashiwa city, Chiba prefecture in Japan.

The park size is 18.5 hectares, including four ponds, various forests, grass fields.

There is rich biodiversity..... valuable plants and insects close to the city.

NPO Konbukuroike-Shizennomori is conservating this natural environment in partnership with citizens, Kashiwa city, universities and neighborhood companies, also implementing nature investigation and environmental education.

Please come to this park and feel Konbukuro nature.

Since our NPO is recruiting members, we welcome to participate our activities experience.....please feel free to contact us.
